PRINT AUDIT® ASSESSOR is a unique version of Print Audit 6 that provides office equipment vendors with up to a 60 day print tracking capability to conduct complete assessments of their customer's print environment.

MORE SALES

Sell more hardware by demonstrating to clients the benefits/savings of new hardware with lower costs per page.

MORE DATA

Analyze print volumes and workflow to identify equipment inefficiencies and bottlenecks on your client's networks.

MORE OPPORTUNITY

Get your foot in the door with the people who matter by offering decision makers more than just "the box".

The Print Audit Assessor is the **ONLY** solution that tracks 100% of volumes including all local, networked and direct-to-IP printing devices.

YOU CAN USE PRINT AUDIT ASSESSOR TO:

- ▶ Discover where prints are done
- ▶ Learn who is printing & what documents are being printed
- ▶ Learn how documents are being produced (time, process, etc.)

THIS INFORMATION WILL HELP YOU TO:

- ▶ Discover devices that are not being used to their full potential
- ▶ Identify where the cost saving opportunities are for you & your customer

"We have added the Print Audit Assessor program to our arsenal of tools; we count the Assessor tool as an extremely valuable and revealing tool that will make a client take notice!"
