"The Rapid Assessment Key provides us with instant credibility with our clients and helps us partner with them to move to a fully managed print environment."

Chad Bailey - IT Support Technician, The University of Oklahoma

Get a foot in the door before your competitors do!

With Print Audit's award-winning Rapid Assessment Key, you can discover real time data about all of your customer's imaging devices and generate detailed reports in minutes without any hardware installation.

PRINT AUDIT® RAPID ASSESSMENT KEY

allows office equipment dealers to easily gather meter reads, discover devices and troubleshoot document output issues in minutes.

Print Audit is the **ONLY** print management company that has developed partnerships with all of the major office equipment manufacturers. This ensures Rapid Assessment Key can access vital information to produce the **most accurate** scan results in the industry.

TECHNICAL ADVANTAGES

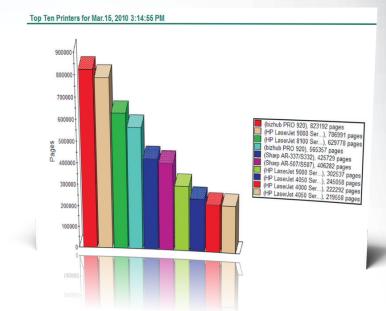

- Extremely easy to use
- No software or hardware installation required
- Scans networks of any size in just moments
- Very compact & efficient software architecture
- Data integrates with many third-party proposal generating systems

HARDWARE FEATURES

- Operates via a 256MB, ultra-fast USB 2.0 thumb drive
- Compact to fit easily into all USB ports
- Unique swivel design ensures that you never lose the cap
- Works with Windows 2000 & newer

PRINT AUDIT Rapid Assessment Key

The Rapid Assessment Key includes a **powerful reporting tool** that allows you to assign a cost per page and generate comparison reports between current and previous scans.

Reports are generated via an easy to use **reporting wizard** that can be customized according to your specifications. Data can also be exported to CSV.

INSTANTLY DISCOVERS

- Device status
- Toner levels
- Life page count
- Color vs. mono counts
- Print vs. copy counts
- Scan/fax counts

- Serial number
- ▶ IP address
- MAC address
- Device description
- Asset number
- Location

"I was able to use the Rapid Assessment Key with zero training, deliver incredible and valuable data for the customer, and truly be looked at as a consultant, not just another copier salesman."

Paul Godzak - Agent/Owner, Innovative Office Solutions
